Table of Contents Volume 175, 1988

Number 1

L.A. Weisberg, L.E. Wimmers, R. Turgeon: Photoassimilate-transport characteristics of non-chlorophyllous and green tissue in variegated leaves of *Coleus blumei* Benth 1

E.E. Irish, T.M. Nelson: Development of maize plants from cultured shoot apices 9

C.N. McDaniel, R.S. Poethig: Cell-lineage patterns in the shoot apical meristem of the germinating maize embryo 13

P. Benichou, R. Calvayrac, M. Claisse: Induction by antimycin A of cyanide-resistant respiration in heterotrophic *Euglena gracilis*: Effects on growth, respiration and protein biosynthesis 23

R.H. Tyson, T. ap Rees: Starch synthesis by isolated amyloplasts from wheat endosperm 33

E. Hartmann, M. Weber: Storage of the phytochrome-mediated phototropic stimulus of moss protonemal tip cells 39

A. Friemann, W. Hachtel: Chloroplast messenger RNAs of free and thylakoid-bound polysomes from *Vicia faba* L. 50

G. Dalessandro, G. Piro, D.H. Northcote: A membrane-bound enzyme complex synthesising glucan and glucomannan in pine tissues 60

R. Lührs, H. Lörz: Initiation of morphogenic cell-suspension and protoplast cultures of barley (*Hordeum vulgare* L.) 71

T. Hartmann, H. Sander, R. Adolph, G. Toppel: Metabolic links between the biosynthesis of pyrrolizidine alkaloids and polyamines in root cultures of *Senecio vulgaris* 82

U. Winkler, W. Säftel, H. Stabenau: β-oxidation of fatty acids in algae: Localization of thiolase and acyl-CoA oxidizing enzymes in three different organisms 91

R. Edwards, W.J. Owen: Regulation of glutathione S-transferases of *Zea mays* in plants and cell cultures 99

M.B. Lanahan, T.-H.D. Ho: Slender barley: A constitutive gibberellin-response mutant 107

P.M. Chandler: Hormonal regulation of gene expression in the "slender" mutant of barley (*Hordeum vulgare* L.) 115

P.W. Gandar, A.J. Hall: Estimating position-time relationships in steady-state, one-dimensional growth zones 121

U. Hecht, R. Oelmüller, S. Schmidt, H. Mohr: Action of light, nitrate and ammonium on the levels of NADH- and ferredoxin-dependent glutamate synthases in the cotyledons of mustard seedlings 130,

Number 2

A.R. Slabas, C.G. Smith: Immunogold localization of acyl carrier protein in plants and *Escherichia coli*: Evidence for membrane association in plants 145

P.B. Green: A theory for inflorescence development and flower formation based on morphological and biophysical analysis in *Echeveria* 153

A. Sturm, T.A. Voelker, E.M. Herman, M.J. Chrispeels: Correct glycosylation, Golgi-processing, and targeting to protein bodies of the vacuolar protein phytohemagglutinin in transgenic tobacco 170

C.B. Osmond, J.A.M. Holtum, M.H. O'Leary, C. Roeske, O.C. Wong, R.E. Summons, P.N. Avadhani: Regulation of malic-acid metabolism in Crassulacean-acid-metabolism plants in the dark and light: In-vivo evidence from ^{13}C-labeling patterns after $^{13}CO_2$ fixation 184

C. Freudling, N. Starrach, D. Flach, D. Gradmann, W-.E. Mayer: Cell walls as reservoirs of potassium ions for reversible volume changes of pulvinar motor cells during rhythmic leaf movements 193

M. Steingraber, W.H. Outlaw, Jr., R. Hampp: Subcellular compartmentation of fructose 2,6-bisphosphate in oat mesophyll cells 204

N. Viner, G. Whitelam, H. Smith: Calcium and phytochrome control of leaf unrolling in dark-grown barley seedlings 209

J.J. Casal, H. Smith: Persistent effects of changes in phytochrome status on internode growth in light-grown mustard: Occurrence, kinetics and locus of perception 214

C.L. Bassett, C.P. Mothershed, G.A. Galau: Floral-specific polypeptides of the Japanese morning glory 221

E. Ögren: Photoinhibition of photosynthesis in willow leaves under field conditions 229

A. Tretyn, J. Kopcewicz: Calcium localization in oat aleurone cells using chlorotetracycline and X-ray microanalysis 237

G.F.E. Scherer, G. Martiny-Baron, B. Stoffel: A new set of regulatory molecules in plants: A plant phospholipid similar to platelet-activating factor stimulates protein kinase and proton-translocating ATPase in membrane vesicles 241

D.A. Graves, J.M. Stewart: Chronology of the differentiation of cotton (*Gossypium hirsutum* L.) fiber cells 254

P.T. Evans, B.L. Holaway, R.L. Malmberg: Biochemical differentiation in the tobacco flower probed with monoclonal antibodies 259

A.M. Smith: Major differences in isoforms of starchbranching enzyme between developing embryos of round- and wrinkled-seeded peas (*Pisum sativum* L.) 270

K.S. Rathore, T.K. Hodges, K.R. Robinson: Ionic basis of currents in somatic embryos of *Daucus carota* 280,

Number 3

L. Sossountzov, R. Maldiney, B. Sotta, I. Sabbagh, Y. Habricot, M. Bonnet, E. Miginiac: Immunocytochemical localization of cytokinins in Craigella tomato and a sideshootless mutant 291

G. Garcia-Herdugo, J.A. González-Reyes, F. Gracia-Navarro, P. Navas: Growth kinetics of the Golgi apparatus during the cell cycle in onion root meristems 305

R.S. Pearce: Extracellular ice and cell shape in frost-stressed cereal leaves: A low-temperature scanning-electron-microscopy study 313

M. Ludewig, K. Dörffling, H. Seifert: Abscisic acid and water transport in sunflowers 325

C.G. Bowsher, M.J. Emes, R. Cammack, D.P. Hucklesby: Purification and properties of nitrite reductase from roots of pea (*Pisum sativum* cv. Meteor) 334

L. Stange, D.J. Osborne: Cell specificity in auxin- and ethylene-induced 'supergrowth' in *Riella helicophylla* 341

D.J. Bagnall, R.W. King, G.D. Farquhar: Temperature-dependent feedback inhibition of photosynthesis in peanut 348

D.H. Greer, W.A. Laing: Photoinhibition of photosynthesis in intact kiwifruit (*Actinidia deliciosa*) leaves: Effect of light during growth on photoinhibition and recovery 355

S. Satoh, T. Fujii: Purification of GP57, an auxin-regulated

extracellular glycoprotein of carrots, and its immunocytochemical localization in dermal tissues 364
G.A. Berkowitz, K.S. Kroll: Acclimation of photosynthesis in *Zea mays* to low water potentials involves alterations in protoplast volume reduction 374
P. Nick, E. Schäfer: Spatial memory during the tropism of maize (*Zea mays* L.) coleoptiles 380
O. Baron-Epel, P.K. Gharyal, M. Schindler: Pectins as mediators of wall porosity in soybean cells 389
M.R. Thomas, R.J. Rose: Enrichment for *Nicotiana* heterokaryons after protoplast fusin and subsequent growth in agarose microdrops 396
S. Sakaguchi, T. Hogetsu, N. Hara: Arrangement of cortical microtubules in the shoot apex of *Vinca major* L. Observations by immunofluorescence microscopy 403
G.J. McDougall, S.C. Fry: Inhibition of auxin-stimulated growth of pea stem segments by a specific nonasaccharide of xyloglucan 412
J.G. Carman: Improved somatic embryogenesis in wheat by partial simulation of the in-ovulo oxygen, growth-regulator and desiccation environments 417
D.G. Grosskopf, I.M. Scott: Amyloplast development in etiolated and ethylene-treated pea epicotyls 425,

Number 4

M.A. Tanchak, P.J. Rennie, L.C. Fowke: Ultrastructure of the partially coated reticulum and dictyosomes during endocytosis by soybean protoplasts 433
K.A. VandenBosch, E.H. Newcomb: The occurrence of leghemoglobin protein in the uninfected interstitial cells of soybean root nodules 442
C.M. Hylton, S. Rawsthorne, A.M. Smith, D.A. Jones, H.W. Woolhouse: Glycine decarboxylase is confined to the bundle-sheath cells of leaves of C_3-C_4 intermediate species 452
J. Muñoz, M.J. Merrett: Inorganic-carbon uptake by a small-celled strain of *Stichococcus bacillaris* 460
C. Bremberger, H.-P. Haschke, U. Lüttge: Separation and purification of the tonoplast ATPase and pyrophosphatase from plants with constitutive and inducible Crassulacean acid metabolism 465
H. Smith, G.M. Jackson, G.C. Whitelam: Photoprotection of phytochrome 471
W. Lu, K. Enomoto, Y. Fukunaga, C. Kuo: Regeneration of tepals, stamens and ovules in explants from perianth of *Hyacinthus orientalis* L. Importance of explant age and exogenous hormones 478
D. Bartels, M. Singh, F. Salamini: Onset of desiccation tolerance during development of the barley embryo 485
J.G. Peretó, J.P. Beltrán, J.L. García-Martínez: The source of gibberellins in the parthenocarpic development of ovaries on topped pea plants 493
C. Bergounioux, C. Perennes, S.C. Brown, P. Gadal: Cytometric analysis of growth-regulator-dependent transcription and cell-cycle progression in *Petunia* protoplast cultures 500
M.T. McManus, J. McKeating, D.S. Secher, D.J. Osborne, D. Ashford, R.A. Dwek, T.W. Rademacher: Identification of a monoclonal antibody to abscission tissue that recognises xylose/fucose-containing N-linked oligosaccharides from higher plants 506
S. Waffenschmidt, R. Spessert, L. Jaenicke: Oligosaccharide side chains of wall molecules are esential for cell-wall lysis in *Chlamydomonas reinhardtii* 513
K.J. Oparka, K.M. Wright: Influence of cell turgor on sucrose partitioning in potato tuber storage tissues 520
G. Pearce, C.A. Ryan, D. Liljegren: Proteinase inhibitors I and II in fruit of wild tomato species: Transient components of a mechanism for defense and seed dispersal 527
R. Atzorn, A. Crozier, C.T. Wheeler, G. Sandberg: Production of gibberellins and indole-3-acetic acid by *Rhizobium phaseoli* in relation to nodulation of *Phaseolus vulgaris* roots 532
D.V. Basile, J.-J. Lin, J.E. Varner: The metabolism of exogenous hydroxyproline by gametophytes of *Plagiochila arctica* Bryhn et Kaal. (Hepaticae) 539
G. Caetano-Anollés, W.D. Bauer: Feedback regulation of nodule formation in alfalfa 546
S. Shimomura, N. Inohara, T. Fukui, M. Futai: Different properties of two types of auxin-binding sites in membranes from maize coleoptiles 558,
